**TOWN WARRANT**  
**THE STATE OF NEW HAMPSHIRE**

**To the Inhabitants of the Town of Hollis in the County of Hillsborough in said State, qualified to vote in Town Affairs:**

You are hereby notified to meet at the Town Hall in said Hollis on Tuesday, the Fourteenth day of March, next at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To hear the reports of the Selectmen and other Town Officers and Committees.
4. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
5. To see if the Town will vote to accept State Aid for the construction of Class V roads and appropriate the sum of \$1,164.10 to pay the Town's share.
6. To see if the Town will vote to distribute blank inventories at the time of appraisal.
7. To see if the Town will vote to assess a fine of \$.25 on each poll tax not paid on December 1, 1967.
8. To see if the Town will vote to raise and appropriate the sum of \$25.00 to be expended in co-operation with the N. H. Forestry and Recreation Commission for Forest Fire Protection.
9. To see if the Town will vote to raise and appropriate the sum of \$2,000.00 to be placed in the Capital Reserve funds to be used towards the purchase of a fire truck.
10. To see if the Town will vote to raise and appropriate the sum of \$500.00 to be placed in the Town Shed Capital Reserve Fund.

11. To see if the Town will vote to raise and appropriate the sum of \$500.00 to be added to the Police Cruiser Capital Reserve Fund.

12. To see if the Town will vote to alter the present system of electing a Fire Chief and Two Deputy Fire Chiefs and in its place to elect a Board of Firewards consisting of three members. These three members are to be elected at the 1968 Annual Town Meeting as follows: One to serve for a three year term, one to serve for a two year term and one to serve for a one year term. Each year thereafter one member shall be elected to serve a three year term of office.

13. To see if the Town will vote to approve the transfer of the management of the  $\frac{3}{4}$  acre Webster Charleton lot to the Hollis Town Conservation Commission, subject to the aims and purposes of the Commission.

Given under our hands and seal, this 13th day of February, in the year of our Lord nineteen hundred and sixty-seven.

JEFFREY P. SMITH  
RICHARD WALKER  
RALPH J. HARDY  
Selectmen of Hollis

## COMMUNICATIONS CENTER

To the Selectmen:

2082 telephone calls were received at the communications center in 1966.

Police Department calls totaled 1527. Of these, 584 approximately 38 2/5%, required the attention of an officer. There were 23 ambulance calls, 1 drowning, 2 C. D., 11 Highway Department, the remainder were miscellaneous. Peak months were March, June, July, August and September. 1546 radio calls were logged.

Fire network received 555 telephone calls. 60 of these reported fire or smoke. Radio calls totaled 206. "Quick-Call" was used to call firemen 20 times.

Respectfully submitted,

Rheta McGilvary

## Calls on the Blue Phone in 1966

### To the Police Department and to Radio Dispatcher:

Radio Calls Logged	1546
Calls on Blue Phone	1527
Calls received direct by police	389

---

TOTAL	3462
-------	------

During this year 1966 your Police Department had the opportunity to attend the Police Training School sponsored by the Northern Middlesex County Police Association under the direction of the Massachusetts State Police and the Attorney General's Office. We also had the opportunity to attend the Police Seminar at St. Anselm's College in Manchester, New Hampshire, on "Court Procedures". These men in the department gave their time in order to be better equipped to do the job requested of them by you, the public, at no extra cost to the taxpayer.

The responsibilities and complaints are steadily increasing as each year presents itself. We ask you for your continued cooperation in notifying the Police Department when you are going on vacation in order that we may check your home against possible vandalism.

A mutual aid system has been set up with the surrounding towns. Milford has been established as headquarters for the system. The equipment and manpower from these departments is available upon request.

The successful existence of the law enforcement profession depends upon public cooperation and utilization of its services. The progress of a department depends upon public understanding and good will.

The Hollis Police Department wishes to extend their gratitude for the cooperation that has been given to them this year — which helps to make this a better community in which to live.

HOLLIS POLICE DEPARTMENT  
KENNETH R. BENNETT

Chief of Police  
Hollis, New Hampshire

## REPORT OF FIRE CHIEF

The Hollis Fire Department answered 42 calls during 1966. These consisted of building fires, 7 mutual aid calls, 2 chimney fires, 1 electric dishwasher, 1 car accident, 1 drowning, 2 resuscitator calls, 2 oil burners, 10 grass and brush fires, 4 dump fires, 2 smoke investigations, 1 false alarm, 1 burning fat and 1 bulldozer fire.

None of the buildings were completely destroyed by fire but three of them were pulled down after a good share of the contents had been salvaged.

We received help under Mutual Aid on five fires. At the Archambault Poultry House fire, we had a total of 16 fire trucks, including an aerial ladder, pumpers and tank trucks, with over 100 men manning the equipment. Much more equipment and many more men were readily available if needed.

Minor changes are being made in the department which we feel will modernize it and add to its efficiency.

It is hoped the citizens will help us by adopting the new method of electing a Board of Fire Wardens which is contained in the Town Warrant article.

WARREN H. TOWNE

## REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966).

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A.M. and 5:00 P.M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.
2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important — instruct your children that matches are not play things.

TRULY — ONLY YOU CAN PREVENT FOREST FIRES

WARREN H. TOWNE

Forest Fire Warden

WINTHROP H. HANNAFORD

District Fire Chief

## REPORT OF THE TOWN FOREST COMMITTEE

Our program of timber stand improvement and thinning out of larger trees was continued. Ten acres were improved by killing weed and cull trees and by pruning the lower limbs from correctly spaced, pine crop trees. Howard Parkhurst, Kurt Olson and Robert Coleman did part of the work, and members of the Committee donated several days' work to finish the project for the year. This work was done in the Cammeron and Wallingford (northwest corner) lots and around the north end of Spalding Park.

Howard Parkhurst started to thin out crooked pine trees beside the Smith Road, along the west edge of Parker Swamp. Having an unfortunate accident on another job in the late spring he was unable to finish. As this is being written he is still on crutches.

Road Agent, Charles Dow, in widening Worcester Road, cut several pine trees, which the abutters then donated to the High Schools shop. Mr. Dow had them trucked to Milton Glover's saw-mill, where members of the Committee helped saw them into boards. These were next stuck out behind the High School.

Several boundary lines were checked and brushed out. At one time three members of the Committee were busy in the middle of a swamp, straightening up a five foot high stone bound that had tipped over into the water. They were knee deep in muck and being eaten up by mosquitoes, and the sun was blazing down. Said one, "Why would anyone want to run for this office?????"

Actually the "swamps" came into their own in 1966, the Fiftieth Anniversary of the Town Forest. With the cooperation of the Beaver Brook Association several Wood Duck nesting boxes made by Hollis High School students were put up by some of the students and by members of the Committee at Dunklees' and Parker Ponds. Similarly, foot trails were cut along the eskers, one leading to the Parker Pond bog. The latter trail was used on trips organized by the Beaver Brook Association for a group of local nature lovers, for the two biology classes of the High School and one from a visiting private school and for an ecology session of a forestry course for woodland owners.

In all these trips to the Parker Pond bog the interesting stages of vegetation that have developed since the retreat of the last glacier and partially filled the pond were studied. Thus the educational value of the "swamps" has been added to that of the forestry work, which provides many good demonstrations even though its main purpose has been to increase the amount and quality of timber the Forest will produce in the future.

We again recommend that the profits, if any, from the management of the Town Forest be turned over to the Conservation Commission to further its work. It would make a very minor change in the total Town Budget, but it would give added incentive to the continued donation of labor by interested citizens.

## HISTORY OF HOLLIS TOWN FOREST

This past year marked the fiftieth year of the Town Forest. The cover picture on the report shows part of Dunklee's Pond from the north side near the dam. The Pond is the west boundary of Spalding Park, part of the Town Forest.

Spalding Park, consisting of about 207 acres was given to the town in the Year 1916 by Silas M. Spalding. He stated that he would give the land as a town forest if the town would appropriate \$50.00 a year for 10 years to improve the forest growth. After some bitter discussion about spending \$50.00 a year on such a project, the gift was accepted at the 1916 Town Meeting. Mr. Spalding had served the town many years as Moderator, Tax Collector, Librarian and several other offices. He was a large land owner and was several years ahead of his time in believing that "forest management would pay dividends".

The town purchased another 135 acres along the north line of the Park in 1939. This was the Wallingford, Stearns and Cameron lots. At one time this land was owned by Proctor Bros.

The Dickerman lots, containing 73 acres were taken over by the town for non-payment of taxes and were set up as a Town Forest. The Ernest Dunklee place containing 17 acres (off the Wheeler Road) was also taken by the town for taxes. Part of this was to be a Town Forest and part was to be used as a training area for the Firemen. A small 6 acre lot surrounded by Wallingford and Stearns lots was purchased from Frank Farley in 1945.

Work was done on the Park about every year from 1916-1938. Most of this was supervised by Warren F. Gould who took a great interest in the work. The 1938 hurricane did a lot of damage. Much of the pine was salvaged and stored in Dunklee's Pond along with that of other owners who sold logs to the Timber Salvage Administration of the Federal Government.

Mr. Gould passed away in 1938 and the Second World War soon took attention away from woodland management.

At the Town Meeting in 1951 it was voted to appoint a Town Forester to manage the forest. In 1952 a Town Forest Committee of six men was set up.

Much improvement work and road building was done under the direction of the committee. Several fire ponds have also been dug which are of great value. In 1953 the Town of Hollis was given a New Hampshire Forest Cooperator Award for recognition of an excellent Forestry Program continued for more than five years.

Over 70 towns in New Hampshire own forest land but few can surpass our Town Forest and the program of work being carried out.

## ANNUAL TOWN MEETING — MARCH 8, 1966

The meeting was opened by Moderator Warren Towne at 9:00 A.M. FOR VOTING UNDER Article I, to choose all necessary Town Officers for the ensuing year. The polls were closed at 7:30 P.M. and the business meeting was opened at 8:00 P.M. by Moderator Towne reading the Warrant. Prayer was offered by Rev. William Sipe.

ARTICLE 2. Selectman Ralph Hardy explained the budget. The expenses for the Town Hall are to put storm windows downstairs and to lay new floors on the first floor. Under Civil Defense motion was made by Joseph Cohen to increase the amount in the budget \$750.00 making the appropriation \$850.00. This is to establish a Civil Defense center in the basement of the Town Hall. Seconded. Carried. The increase in the budget for the Town Dump is for gravel. There is an increase in the budget for Summer Roads, which amount is to be spent on Worcester Road near Beaver Brook. Motion by David Seager to increase the budget for Street Lighting \$50.00 for two new lights to be installed at Flints Pond. Seconded. Carried. Motion by Charles Dow to increase the amount of Town Road Aid to \$1,172.04. Seconded. Carried. Motion by Ralph Hardy to decrease the amount for Cemeterys \$850.00 due to money expected from Trust Funds. The increase in the amount for New Lands and Buildings is to make available money to buy land in case it is decided to relocate the Town Shed.

ARTICLE 3. Reports of the Town Officers were accepted as printed in the Town Report.

ARTICLE 4. Motion by Charles Dow to authorize the Selectmen to borrow money in anticipation of taxes. Seconded. Carried.

ARTICLE 5. Motion by Charles Dow to accept State Aid for the construction of Class V roads and appropriate the sum of \$1,172.04. Seconded. Carried.

ARTICLE 6. Motion by Deane Simpson to authorize the Selectmen to distribute blank inventories at the time of appraisal. Seconded. Carried.

ARTICLE 7. Motion by Evelyn Rice to assess a fine of twenty-five cents on each poll tax not paid by December 1, 1966. Seconded. Carried.

ARTICLE 8. Motion by Donat Roy to raise and appropriate the sum of \$25.00 to be expended in co-operation with the N. H. Forestry and Recreation Commission for Forest Fire Protection. Seconded. Carried.

ARTICLE 9. Motion by David Seager to raise and appropriate the sum of \$3,000.00 to be placed in the capital reserve funds to be used toward the purchase of a fire truck. Seconded. Carried.

ARTICLE 10. Motion by Joseph Archambault to raise and appropriate the sum of \$1,000.00 to be placed in the capital reserve funds to be used towards the purchase of a police cruiser. Seconded. Amendment by Richard Navaroli to increase this amount to \$1,400.00 to make possible the purchase of a station wagon. Seconded. Carried. The original motion was carried to include the amendment.

ARTICLE 11. Motion by Erving Simonds to allow the Tax Collector to accept pre-payments towards forthcoming tax bills. Seconded. Carried.

ARTICLE 12. Motion by Harold King to authorize the selectmen to withdraw from the police cruiser reserve at the request of the police chief, sufficient funds to purchase said cruiser. Seconded. Amendment by Deane Simpson that said cruiser shall be a station type vehicle. Seconded. Carried. The original motion was carried to include the amendment.

ARTICLE 13. Motion by Charles Dow to raise and appropriate the sum of \$500.00 to be placed in the Capital Reserve funds; to be used for the renovation and addition to the Town Shed or replacement of it on a new location. Seconded. Amendment by Deane Simpson that in the event of a new location, said location be subject to approval of the Planning Board. Seconded. Carried. The original motion was carried to include the amendment.

ARTICLE 2. Motion by Richard Devens to accept the budget as published and including all amendments already voted. Seconded. Carried.

ARTICLE 14. Motion by Henry Hildreth to transfer the management of certain Town lands, 10 acre Parker lot and 3 acre Sander-son lot, to the Hollis Town Conservation Commission subject to the aims and purposes of the Commission. Seconded. Carried.

Moderator Towne read the results of the balloting under Article 1. The meeting was adjourned at 10:00 P.M.

A true copy of record — attest.

BERTHA E. DUNCAN

Town Clerk

## SPECIAL TOWN MEETING

April 26, 1966

The meeting was opened by Moderator Warren Towne by reading the Warrant which was: — To see if the Town will vote to change the action taken at the Annual Town Meeting, March 8, 1966, on Article 12 "To see if the Town will vote to authorize the Selectmen to withdraw from the Police Cruiser Reserve at the request of the Police Chief, sufficient funds to purchase said cruiser;" amended "that said cruiser shall be a station type vehicle."

Motion by Harold King, Jr. that the Town not change the action taken at the Annual Town Meeting, March 8, 1966, on Article 12. Seconded. After considerable discussion a motion by Paul Fimbel for an immediate vote, which was by written ballot.

Yes - 40      No - 53      Not carried.

Motion by Richard Walker that the Town rescind the action taken at the Annual Town Meeting, March 8, 1966, on Article 12. Seconded. After more discussion a motion by Irving Cable for an immediate vote, which was by written ballot.

Yes - 58      No - 34      Carried.

Motion by Richard Walker that the Town authorize the Selectmen to withdraw from the Police Cruiser Reserve at the request of the Police Chief, sufficient funds to purchase said cruiser. Seconded. Motion by David Seager for an immediate vote. Not carried. There was a lengthy discussion covering the pros and cons of a sedan versus a station wagon as a Police Cruiser. Motion by Robert Pierce for an immediate vote, which was by written ballot.

Yes - 57      No - 27      Carried.

The meeting was adjourned at 10:10 P.M.

A true copy of record — attest.

BERTHA E. DUNCAN

Town Clerk

## SPECIAL TOWN MEETING

June 23, 1966

The meeting was opened at 8:00 P.M. by Moderator Warren Towne, who read the Warrant as follows:

Article 1. To see if the Town will vote to establish a Town Recreation Commission to be appointed by the Selectmen as set forth in RSA31: 44-50.

Article 2. To see if the Town will vote to accept the donation of tennis courts to be built by private funds on Nichols Field, Depot Road.

Article 1. Motion by Jack Boyd that the Town establish a Town Recreation Commission to be appointed by the Selectmen as set forth in RSA31: 44-50. Seconded. Carried.

Article 2. Motion by Jack Boyd that the Town accept the donation of tennis courts to be built by private funds on Nichols Field, Depot Road. Seconded. Carried.

The meeting was adjourned at 8:20 P.M.

A true copy of record — attest.

BERTHA E. DUNCAN

Town Clerk

## HOLLIS PLANNING BOARD REPORT FOR THE YEAR 1966

Eleven meetings have been held throughout the year, two of these with the Zoning Board of Adjustment. Major areas of work have been:

1. Review of the "Far Horizons" Subdivision request.
2. Meetings of various Board members in Concord with the Governor and the Stream Pollution Commission, for guidance in land usage and soil capability.
3. Completion of the Hollis Town Map by the Department of Resources and Economic Development.
4. Preliminary planning with the Soil Conservation Service to have soil capability information added to the town map.
5. Arranging for hearings and a special town meeting early in 1967 to ammend the zoning ordinance with regard to:
  - a. Dwelling lot size
  - b. backland use
  - c. dwelling lot size in recreational areas
  - d. building regulations.

We expect the town map will be completed in 1967 and this combined with zoning ordinance revisions should prove valuable in assisting in the future orderly growth of the town.

DANIEL BROCKLEBANK, Chairman  
HOWARD HUNT, Clerk  
RICHARD WALKER  
ELWIN HARDY  
WILLIAM HOWE

## REPORT OF THE HEALTH OFFICER

January 23, 1967

During the past year, the duties of the health officer have included the checking of public and private water supplies, inspection of planned drainage areas, piggery, consultation with the State Engineer concerning well contamination by road salt and complaints and inquiries of one type or another. Where complaints have been justified, the offending problems have been rectified at the local level.

Mr. Frost continues to oversee the town dump in a most satisfactory manner.

HENRY C. FORRESTER, M. D.

## ZONING BOARD OF ADJUSTMENT

January 14, 1967

Hollis Selectmen  
Hollis, N. H.  
Dear Gentlemen,

The zoning board of adjustment had a very inactive year in 1966, hearing only six requests for variances. Four of these requests were denied, one granted and the sixth a regular building permit allowed as no variance was required.

The board is attempting to interpret the regulations to uphold the spirit and intent of our zoning ordinance to promote the general welfare of our community. We sincerely hope we have the support of the people of Hollis.

Sincerely,

W. BOYD WESTON, Clerk  
WENDELL WRIGHT, Chairman  
DENTON LATES  
LAWRENCE WINCHESTER  
FRANKLIN WORCESTER

## SEXTON'S REPORT

This year the price of lots was increased to \$40 for a four grave lot and \$80 for an eight grave lot. The additional amount will be needed for purchase of more land in the future, grass mats and lowering device, and increased costs of maintenance.

More room was made for lots at the East Cemetery. Anyone wishing to purchase lots in this area must understand that grave digging expense will be higher than normal because of the ledge under the top soil.

In 1967 we hope to expand the North Cemetery. A hill of sand will have to be removed in the back part to make it level with the front which will be top-dressed and fertilized. The land is excellent for digging and there are already lots for sale.

All new lots sold starting this year in any of the cemeteries will be sold only with perpetual care unless otherwise specified by the sexton or selectmen.

PAUL A. BOSQUET  
Sexton

## HIGHWAY DEPARTMENT

The Highway Department had a very busy year. Winter problems were not too serious, but with the ever growing population of Hollis and the longer school bus routes it necessitates much more attention be paid to our winter roads, making the use of salt and sand a must. The equipment of D. S. Wright, Inc. has been pressed into service with the best of results.

Summer came along with the usual dry conditions which cut down the grading operations, and the loss of much gravel in the form of dust.

The two \$1,000 special appropriations were put to very good use. No. 1. Approximately 2500 ft. of roadway on Worcester Rd, between the residence of Dr. Singer and Beaver Brook bridge, was widened and improved greatly. No. 2. Through the great generosity of Moses' Wilsons, the Highway Dept. moved the Cooper Shop and car port, enabling us to extend one culvert and replacing another so that the narrow portion of the road at this point was greatly improved. We believe that this program should continue.

The T.R.A. Project this year was to improve another portion of the school bus route which was in need of repair. Approx. 1.4 miles of Rocky Pond Rd. beginning at Wood Lane, extending to Hayden Rd. was constructed and with the addition of a small amount of gravel the project will be completed this year.

Culverts were installed in several locations and gravel was applied to Hayden Road, Farley Road, Van Dyke Road, Ridge Road, and Rideout Road. Nashua also applied gravel to their portion of Farley Road.

There are many more dangerously narrow and crooked spots on our paved roads which should be corrected. If the town owned a four-wheel drive bucket loader, in many cases this could be done at a minimum of expense and this machine could be put to many other uses, one of which would be plowing snow and clearing the school yards in the winter. The availability of trucks for snow plowing is getting to be a problem due to our pay scale, which is in line with the State, but not satisfactory to the contractor.

We in your Highway Dept. are always working for a better and safer highway system.

CHARLES F. DOW

Road Agent

## REPORT OF THE SELECTMEN

This year the Selectmen are commencing their report to the Town with a brief answer to the question often asked by the taxpayers — “Why did you raise my assessment again this year when I made no improvements since a year ago?” The answer is two-fold: First, it has been the finding of the assessors that Hollis property appreciates, currently, at an annual rate of not less than 6%. This is the result of supply and demand in a period of continuing economic inflation. Second, the State Tax Commission, in equalizing the evaluation of the Town in its financial survey is putting the emphasis on **sales price alone** in determining the level of values prevailing currently within the Town.

Since the amount of State Aid rendered the School and Town, as well as the Town share of the County Tax and the Town's Schools' borrowing power are based on the percentage of assessment used to equalize the valuation, the assessors have to keep prevailing assessments in line with current sound market value. To do otherwise can cost the taxpayers \$50,000 in State money per year or more.

Besides their work as the Board of Assessors, the Selectmen have endeavored to carry out the wishes expressed by the Town at Town Meeting and throughout the year. The new floor was laid in the lower Town Hall, combination storm windows also were added downstairs. The building is now in charge of Mr. Ernest Pratt, custodian Mr. Michael McGilvary having retired for reasons of ill health.

The new police cruiser voted by the Town was put into service and has been a very effective addition to the police department. Also the Town now purchases its gas in bulk, thus saving eleven cents per gallon in State and Federal gas taxes.

With completion of Henry Hildreth's project of developing street numbers for all the residents on town roads and the completing of the census headed up by Mrs. Alan Orde, Sr., Hollis is thoroughly named and numbered.

The Selectmen have spent some very interesting evenings working with the Planning Board, Board of Adjustment and Town Counsel, developing several amendments to the Zoning Ordinance to be presented soon to the voters for their action.

We would like to point out that without the benefit of sound thinking available from our department heads, Warren Towne, Fire Chief, Kenneth Bennett, Police Chief and Charles Dow, Road Agent, our work would be much more difficult.

The Board of Selectmen wish to call attention to the sudden passing of Roscoe Brown on September 13; a selectman for 12 years, a deputy fire chief for 20 years and a planning board member for 3 years. He served the Town long and faithfully.

JEFFREY P. SMITH, Chairman  
RICHARD WALKER  
RALPH J. HARDY

### ANNUAL REPORT OF DOG OFFICIER

Since I was sworn into this office on the 24th day of Jan. 1966 I have received a total of 72 calls on dogs in this town which I have answered to the best of my ability and at a small cost to you townspeople. I hope to do so in the future.

Thank You,

DAVID A. GARDNER  
Dog Officer

## BUILDING INSPECTOR'S REPORT

Permits issued through the Office of the Building Inspector for the year 1966 included the following:

- 17 Single family residences
- 18 Additions to residences
- 5 Farm buildings
- 8 Trailers                      13 Storage buildings
- 3 Garages                      1 Horse stable
- 33 Water Supply or Sewerage Disposal Systems

The most notable changes in permits issued relative to 1965 was a decline in new residential construction.

This was not surprising, considering the nationwide shortage of available credit and the decline in new residential construction over the whole country. As the new year begins both of these conditions seem to be showing more favorable comparisons with the preceeding months.

I feel that within the regulations contained in the Hollis Zoning Ordinance the town will continue to grow in an orderly and healthy fashion.

I ask that anyone considering new exterior construction of any kind please contact me regarding regulations and permits before starting the projects. In this way it will be easier for all of us to stay within the spirit of the law.

CLARENCE L. HOWE  
Building Inspector

## REPORT OF THE TOWN AUDITORS

This certifies that the undersigned have examined the accounts of the Tax Collector, Trustees of the Trust Fund, Trustees of the Hollis Social Library, Town Clerk, Town Treasurer, Conservation Commission and Board of Selectmen and find them to be correct.

February 14, 1967

TOWN AUDITORS  
LAWRENCE W. MORRISON  
PAUL T. SIPE

## RECREATION COMMISSION REPORT

The Commission was established at a Special Town Meeting in June, 1966 and is composed of five members. We have met four times with Mr. Richard Tapply, State Director of Community Recreation in Concord and in Hollis, to better work with the existing recreational programs, particularly the Hollis Athletic Association and to develop new programs.

Programs for 1966 have been Boys and Girls Saturday morning basketball; Women's Wednesday night exercise and volley ball program; Men's Sunday night basketball; Little League, Babe Ruth and Junior Babe Ruth Leagues; Girls' and Men's Co-recreational softball. The hall was made available for basketball by the Selectmen, to groups of boys with an adult supervisor.

Youth programs have been supervised by adult volunteers.

Proposed programs for 1967 are as follows: Plan for Depot Rd. Nichol's Field, including tennis courts, hard surface play area, softball field, skating area, baseball and softball equipment.

HOWARD HUNT, Chairman

JANET PITMAN, Secretary

EVERDEAN HILLS, Treasurer

MARY PIKE

RICHARD DRISKO

Recreation Commission

## ARTICLES OF ORGANIZATION

### ARTICLE I — NAME

The appointed committee shall be known as the Recreation commission of the Town of Hollis, N.H.

### ARTICLE II — PURPOSE

The purposes of the Commission shall be to:

- a) Work in conjunction with existing recreational programs in the Town of Hollis.
- b) To develop new recreational programs.
- c) To finance recreational programs with monies allotted the Commission by the Town, raised by the Commission and or received from private sources.
- d) To publish all information relative to the recreational programs.

### ARTICLE III — MEMBERSHIP

The commission shall consist of five members appointed by the Selectmen of the Town of Hollis. Each member shall be appointed for a term of three years.

## ARTICLE IV —MEETINGS

- a) The Commission shall meet monthly at a time and place determined by the members at the meeting immediately prior.
- b) A postponement may be voted by the members.
- c) Special meetings may be called by the chairman.
- d) The annual meeting shall be that meeting in the month immediately preceding **Town Meeting**.
- e) Three members of the Commission will constitute a quorum to transact business.
- f) All meetings of the Commission will be open meetings and any resident voter, or representative of a Town of Hollis organization, may attend or be invited to assist in,contest, or clarify the items of business.

## ARTICLE V —OFFICERS

Officers of the Commission shall be a chairman, secretary and treasurer.

- a) The Chairman shall preside.
- b) The Secretary will act as recording and corresponding secretary.
- c) The Treasurer shall receive, record, deposit and disburse, all Recreation Commission monies. The Treasurer shall be bonded in an amount commensurate with the current level of financial activity of the Commission. The cost of the aforesaid bond will be borne by the Commission. Prior to disbursement of any monies in excess of \$25.00 by the Treasurer, a voucher must be submitted to a meeting of the Commission and approved by same.

## ARTICLE VI — DUTIES

Duties of each member shall be jointly arrived at by the Commission and shall be consistent with the purpose of the Commission.

## ARTICLE VII — AMENDMENT

- a) These articles of organization may be amended or supplemented by a majority vote of the Commission providing said amendment or supplement has been presented in writing at a meeting prior to the meeting of the vote.
- b) Supplements or amendments may be offered to couple the original purpose of the Commission to the progress of the times.

## HOLLIS CONSERVATION COMMISSION REPORT

During the past year most of our activities centered around the issue of pollution of the Nashua and Merrimack river systems.

Project "Purewater", as we choose to call it, was created to provide a means by which people could express to their elected representatives and others their feelings on the water pollution problem.

The project was enthusiastically received and adopted by almost all of the cities and towns along the Nashua River both in Massachusetts and New Hampshire.

Although it is difficult to pinpoint direct results, the project served to highlight the pollution problem. This in turn generated favorable reaction in official quarters and thus, in our opinion, will hasten a solution.

The tabulation which follows summarizes opinions received from Hollis residents in response to the questionnaire mailed last October.

436 questionnaires, which covered 90% of the homesteads in town, were mailed.

228 replies, representing a 52% return, were received from 421 persons.

Of these replies

123 or 54% requested a B-1 use classification, which is suitable for bathing and boating, fish habitat and public water supply after adequate treatment.

57 or 25% requested a B-2 classification, which is suitable for boating, fish habitat — industrial and public water supplies after adequate treatment.

48 or 21% requested a C classification, which is suitable for boating, fish habitat and industrial water supply.

63% of the replies said the river should be cleaned up in from 3 to 5 years.

## TREASURER'S REPORT

## THE STATE OF NEW HAMPSHIRE

**To the Inhabitants of the School district in the town of Hollis qualified to vote in district affairs:**

You are hereby notified to meet at the Town Hall in said district on the thirteenth day of March, 1967, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the report of the Kindergarten Committee.
7. To hear the reports of Agents, Auditors, Committees or Officers chosen, and pass any vote relating thereto.
8. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
9. To see if the district will vote to approve the position of Business Manager for Union No. 40 and accept State Aid for that position.
10. To see if the district will vote to raise and appropriate the sum of \$442,000.00, or any other sum, for constructing and originally equipping and furnishing additions to the Elementary School and the Secondary School, and to determine whether such appropriation shall be raised by borrowing or otherwise.

11. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the payment of salaries for school district officials and agents, and for the payment of the statutory obligations of the district.

12. To see if the district will vote to authorize the School Board to make application for and accept on behalf of the school district any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire or from any other source.

13. To see if the district will vote to accept the provisions of R. S. A. 197-1, A through G inclusive, that is, to elect the district officers at the annual Town Meeting.

14. By Petition: To see if the district will vote to limit the term of office on the Hollis School Board to two consecutive terms.

15. To see if there is any other business to come before the meeting.

Given under our hands at said Hollis this 12th day of February, 1967.

## REPORT OF THE SCHOOL BOARD

Your school board has met regularly throughout the year with your school administrators to try to find ways to provide a good education for the Hollis children.

We are most grateful for the work of many months which produced the report of the Space Study Committee. As a result of the committee's findings, the school board has been able to prepare for the coming increase in school population.

With the help of several insurance companies' representatives, we have reviewed our policies and as a result we feel our coverage is up to date.

The Salary Evaluation plan is in its first year of operation. Each teacher receives a rating based on several classroom visits by the Superintendent, the Teacher Consultant and the Principal.

It is felt that as a result of the conferences held with each teacher to discuss the rating assigned that the quality of teaching will be raised. Extra salary incentives have been provided for those teachers who receive high ratings.

It is hoped that by having this plan in effect, the better teachers will continue with us and that more experienced teachers will be attracted to our system when vacancies occur.

The superintendent and his staff are providing exciting and imaginative leadership in education and your principals and teachers are giving enthusiastic support.

### STATE TAX COMMISSION

Lawton B. Chandler, Commissioner

## REPORT OF SUPERINTENDENT OF SCHOOLS

I herewith submit my second annual report as Superintendent of the Union No. 40 public schools. My report will be directed at three areas: 1. An assessment of the past year, 2. Implementations of recommendations made in 1965-66, and 3. Recommendations for future needs.

The 1965-66 school year was rewarding and successful. For this, I owe a great debt of gratitude to an excellent corps of teachers and administrators, to the cooperation and enthusiasm of the parents of this community, to an extremely capable and dedicated central office staff, and to the firm foundation laid by past administrators.

I would be remiss if I did not single out members of the School Board for special commendation. Without their cooperation, understanding, and wisdom, a successful year could not have been realized. The School Board has discharged its responsibilities with admirable courage and determination in the true spirit of dedicated public service.

If I was to single out one outstanding accomplishment during this past year, it would be the opening of the new Milford Area Junior — Senior High School in September of 1966. This school was forced to open under extremely difficult conditions. We were without heat, rooms were partially completed, and the workmen went about their busy schedule of construction in the midst of pupils and teachers busily at the task of education. In spite of the difficulties, our pupils and teachers conducted themselves in an outstanding manner. Without their full cooperation, school operation would not have been possible. It is also important to note the fine cooperation received from parents in the area towns. My office had only one call to protest the school conditions during this period. You, the parents are to be commended for your patience and support.

The new school is now substantially completed and the people can be well assured that this building is the product of quality construction. You have a school that you can be proud of. The library facilities are recognized as the finest in the state. The planning and design are a tribute to a hard working area committee, school building committee and School Board. These people spent long hours overseeing the completion of this project, and their dedication to the task has borne quality results.

This year, for the sake of administrative efficiency, we have re-organized the staff at the Area School. Rather than continue with two principals, we have appointed Mr. Corson principal of the Area School with complete administrative authority. Mr. Buck has been appointed Curriculum Director with authority in the area of curriculum research. Mr. Desmarais has been appointed vice-principal and functions in the area of pupil discipline, extra curricula activities and general plant management. These three men have done a remarkable job organizing their staff and guiding the program at the Area School.

The Junior High School building was put to use during this past year. Supervisory Union offices have been moved into this building and occupy four classrooms as office space and one room for conference purposes. The gymnasium has been used by the Special Class and the Jacques School pupils. It was necessary to move one third grade from the Garden Street School to the Annex due to larger primary grade enrollments.

An equally rewarding experience was to see the completion of plans for a new elementary school in the Town of Amherst. The building, which is now under construction, will represent the careful planning of a dedicated group of men who labored long hours to plan the State's first library-centered elementary school. The building will be ready for occupancy in September of 1967.

This year also marked initiation of a special study committee to examine the long range needs of the Milford schools. A similar committee is scheduled to begin operation in Mont Vernon in early spring of 1967. As is becoming more evident each day, the southeastern corner of New Hampshire is expanding rapidly in population, and the foresight shown by citizens in our community to plan for long range educational needs is truly rewarding.

Mont Vernon has continued to provide a quality program under the very capable direction of Mrs. Clark. Unfortunately, Mrs. Clark has decided to culminate her career in education in 1967. Mrs. Clark will be missed by all who have been fortunate enough to have worked with her. Retiring with Mrs. Clark will be Mrs. Scully, our most capable first grade teacher. Filling these two positions with equally competent personnel will be one of the greatest challenges I have faced as Superintendent in this district. I extend best wishes to Mrs. Clark and Mrs. Scully for a well deserved and enjoyable retirement.

Mont Vernon has been plagued with space problems this year. We have had to divide the grade one-two combination and have hired an additional teacher for grade two. By doing this, we have moved into the former work room and now are utilizing the building 100%. Projection studies show that the present facilities will not be adequate for more than one or two years.

This year has been a very successful one for Brookline in terms of educational growth. We have been able to concentrate on the immediate needs of the elementary program and have made significant improvements at all levels. Among the most significant is a modified team approach to instruction in grades four, five and six, and the addition of physical education to the upper elementary program.

The Town of Brookline has also embarked on a planning program and their committee will present to the townspeople, plans for a four or six room addition to the present elementary facilities. Brookline, like other communities, is faced with rapid growth. At present, classes are being conducted in the basement of Daniels Academy and two sections meet in the all-purpose room of the Elementary School. I hope the citizens of Brookline will act favorably to extend the facilities at the Elementary level and allow growth in the quality of educational offerings.

The Hollis School Board appointed a special study committee in 1966 to examine their educational needs and this completed the cycle for the Union 40 schools. When Mont Vernon begins their study in March, we will have 100% activity in the area of educational planning. Hollis, like each community, is plagued with growth problems and, like each other town, they are getting ready in advance. The Hollis committee will be making recommendations for additions at both the Elementary and Secondary schools. The projections of the Hollis Study Committee indicate a marked population increase in the years ahead and a need for continued planning for school space.

The residents of Hollis should be extremely proud of their efforts to support education. This effort has been one of the greatest in the State of New Hampshire and it has provided one of the state's most highly regarded programs. I would like to pay special tribute to the Hollis principals for their dedication to education and for the quality job done by them. It is a pleasure to work with administrators like Mrs. Jacques and Mr. Thorburn. Hollis is fortunate to have them on the staff.

Another event worthy of consideration was the large number of vacancies filled before September of this year. I have made a special effort to observe our new teachers and I take great pride in reporting that this is the finest group of young people we could ever hope to have on our staff. I am sure that the citizens of the community have been equally impressed with the quality of these new teachers. Our new members, together with our very competent veteran staff, have allowed us to continue forward in our quest for quality education in Union 40.

As I completed my first year as Superintendent of Schools, I was most impressed with the remarkable job done by the laymen of our community. Your dedicated contributions have placed education where it is. You can be proud of your accomplishments. I hope that each member of our community, who has contributed, will accept this message as my sincere note of thanks for the accomplishments of the past year. You have made the greatest contributions; your time and energy and the results have already begun to pay big dividends.

Some citizens may not be in agreement with my assessment of the progress in our schools. They may feel that the schools are not progressing at the rate that is commensurate with the community's potential. If this is the case, I urge you to please bring your criticism to us. Too often, our critics are vocal only when out of range of school officials. We welcome constructive criticism and solicit your comments on education.

We have no monopoly on wisdom. You, the citizen, should demand good reasons for the actions we advocate and when you doubt our actions, please come forward and express your opinion. By the same token, I also urge you to speak up for education. You must let your School Board know that you support excellence, and that you are willing to pay for it with tax dollars, with votes and with service. It is not the educators who are in charge of your schools, but you the citizens. You take charge every time you attend the School District Meeting and vote on issues, and everytime you grasp or neglect an opportunity for planning and financing education. This office is open to the people of our community, and I welcome your comments, positive or negative. I want to work with you to stress fine schools and excellence in general. I hope you will agree that our children deserve the best.

#### Review of Recommendations

With the assistance of Federal funds, two of the recommendations made a year ago have been implemented. In April of 1966, we organized a Curriculum Council designed to improve coordination of curriculum — one through twelve. The council is composed of twenty-three faculty members and their primary objectives are to: 1. Coordinate curriculum by subject area in grades one through twelve, 2. An interdisciplinary coordination of curriculum, 3. Improvement of communication between faculty, administration and school board, 4. Improvement of communication between the Union 40 schools for the development of a meaningful program. The council will be responsible for developing complete course guidelines in each of the major subject areas. This project is designed for completion in a three year period.

The second recommendation that was made a year ago was to establish an elementary guidance program. Again, with the assistance of Federal funds, we were able to hire Miss Nancy Mauri as an elementary counselor to serve the Union 40 towns. Miss Mauri has been assigned a tremendous task and has carried on her duties in a most commendable manner. In addition to conducting student conferences, Miss Mauri is available for parent conferences Thursday evenings of each week from 7 in the evening until 10. We are also in the process of developing a better testing and test evaluation program through the elementary guidance office.

The third recommendation made a year ago was the implementation of a kindergarten program for the area towns. Unfortunately, due to the increased costs and rising number of pupils in the towns, this recommendation has had to take a lower order of priority in our program development.

#### Future Needs

The basic test that we must apply to our schools is "Does the growth sought in pupils coincide with the functions established for the schools". The schools of our community are effective if they are accomplishing the objectives as stated in their philosophy, i.e. the schools are dedicated to educating every child to the maximum of his potential. In assessing our current program, we can say that the schools are doing a most commendable job of caring for the majority of our pupils. We are neglecting a few at the extremes, however, and recommendations are being made to care for these deficiencies. We are presently offering an effective program for the retarded. We have, however, another group of youngsters that is presently being cared for in private facilities due to lack of public school concern for their needs. These youngsters, defined as trainable, are as entitled to learning experiences as any other member of our community, and for this reason, I recommend the adoption of a program for their education in Milford. The Milford school could serve as a base for receiving tuition pupils from other districts. A program of this type should be no more costly to Milford residents than tuitioning their children to other towns. Each sending district will contribute to the total operating costs of the program. At the other end of the spectrum, we have our gifted children. We are attempting to accelerate their program through grouping practices at the elementary and secondary schools. There are, however, a percentage of pupils in each community who will benefit from a special program designed for the creative child. Next year, I am recommending a pilot program for the Town of Amherst. If accepted by the district, this program will serve as a pilot project for the State of New Hampshire, and together with our trainable program in Milford, will give us an opportunity to assess full implementation of our philosophy of education.

As stated earlier, we are in an area of rapid population growth and must continue to assess our needs. Each town is presently studying future population impact on education. I hesitate to make recommendations pending the findings of these studies, but feel that thought should be given in the Milford area complex to the consolidation of elementary programs at the intermediate level, grades five through eight. The construction of such a central facility would provide an emergency valve for elementary expansion in each community and relieve possible overcrowded conditions at the present Junior — Senior High School. Hollis is located in an area that could be expanded to include Brookline and other non-district towns at the 7-12 level.

We are also faced with a need of additional staff members at both the elementary and secondary schools to keep the pupil-teacher ratio at an acceptable level. This year's budget will request additional staff members in all of the area towns to maintain this ratio. The remainder of my recommendations will be found incorporated in the reports of the Teacher Consultant and the principals. I hope that careful consideration will be given to each of these recommendations.

I would like to pay tribute to those teachers who will be retiring at the end of the 1966-67 school year. They are: Mrs. Margaret Clark and Mrs. Elizabeth Scully in Mont Vernon, and Mrs. Hazel Tonella, Miss Elsie Wheeler, Miss Doris Rowell and Miss Mary McGettigan in Milford. These teachers have served our community and children faithfully for the past years. I join the entire faculty and community in thanking them for contributions to this field.

In conclusion, I would like to pay tribute to the memory of Mabel Connolly who died during the 1965-66 academic year. Miss Connolly had planned to retire from her Teacher Consultant position in June of 1966, but unfortunately was taken from us in March. Miss Connolly was a dedicated and devoted member of the Union 40 staff. As Teacher Consultant, Miss Connolly brought new life to the schools. Through her efforts, the elementary program reached an all time high. Miss Connolly possessed, to an unusual degree, the personal attributes and professional requirements of a great teacher and administrator. She established a standard of quality to guide and inspire all who will be associated with the Union 40 schools.

JOHN A. MURPHY  
Superintendent of Schools

## TEACHER CONSULTANT

This constitutes my first annual report as Teacher Consultant for Union No. 40 schools. Since assuming the position in August, 1966, I have found it to be both an exciting challenge and a rewarding experience. Considering the growth potential of the area and the constantly increasing educational needs and desires of our children and our society, there is every reason to expect more exciting and demanding challenges, with unlimited opportunity for rewarding experiences in the future.

This report is intended to explore the requirements of the position, focus upon the challenges and suggest the potential benefits to Union No. 40 communities resulting from meeting these challenges. To accomplish these purposes, this report is organized in sections as follows:

1. Details of Position
2. Impressions
3. Action Initiated
4. Recommendations
5. Concluding Remarks

### Details of Position

Basic responsibilities of the position remain unchanged from the past year. Emphasis on various responsibilities has changed, however. The addition of a full time elementary guidance counselor has shifted much of the direct involvement in details of guidance, testing, home and community work to that office. General supervision of the work of the guidance counselor has become the direct responsibility of the teacher consultant. Curriculum studies, help to teachers to secure materials, suggestions for use of materials, organizations of in-service programs and assorted research projects, all designed to aid instructors and help improve instruction occupy a considerable percentage of the teacher consultant's time. Directly related to these duties is the continuing responsibility of cooperating with the secondary principals to hasten articulation of curriculum from grades one through twelve. Also, much more time is to be devoted to assisting in the recruitment of elementary level teachers by this office.

Finally, the most significant change in emphasis has been the establishment of supervisory and evaluation techniques which will help teachers in classroom situations and also rate them for merit pay purposes. The number of visits to each classroom for these purposes now represents the greatest time requirement of this office.

Reporting, advising and recommending on coordination and supervision of the curriculum and the instructional program is done constantly through the superintendent to the various boards of education.

## Impressions

The general quality and dedication of staff members, administration and members of the various boards of education represent encouraging strength in planning and implementing the instructional program. An apparently strong foundation laid by previous staff, administration and board members contributes immeasurably to the present status of the instructional program in Union No. 40 schools.

There have been several encouraging, significant innovations during the past year. The aforementioned addition of a full time guidance counselor was one. Another was the establishment of a curriculum council, comprised of and directed by Union No. 40 teachers which has already resulted in identification of curriculum problems and implementation of steps to improve our programs. Also important was the establishment of a merit evaluation pay program for teachers intended to reconcile payment of salaries with performance and to encourage individual initiative, instructional improvement and the recruitment and retention of superior teachers. These and other efforts indicate an awareness of and concern for providing a quality program for Union No. 40 children.

## Action Initiated

Since the beginning of the present school year, a number of programs and/or steps have been initiated by principals, by this office, or through mutual cooperation, which have been intended to help strengthen the instructional program and to assist teachers in improving instructional techniques and in evaluating new materials and programs.

Among these are the following:

1. Initial steps to coordinating curriculum programs from grade one through twelve. (In conjunction with the curriculum council and secondary principals.)
2. Team teaching organization (Amherst — Grade 4) — Departmentalization (Grade 4-6 Brookline).
3. Revised readiness testing program.
4. Adjusted achievement and I. Q. testing programs.
5. In-Service programs for teachers including consultant service in mathematics, reading and language arts, and, provision for scheduling teachers from one union town for visits in classrooms in another union town to derive benefits from observing different, effective teaching techniques and exchanging ideas.
6. Provision for more extensive purchase of visual-aid materials.
7. Establishment of a teacher-resource library at the Superintendent's office.

8. An independent reading program (apart from the regular program, but intended to complement it) in Brookline grade six.
9. Revisions in the penmanship program.
10. Initial steps in each of the following:
  - a. An evaluation of school program project in conjunction with the State Education Department in Amherst.
  - b. A study of permanent record cards for improvement upon present system.
  - c. A study of the system of grouping children for instruction purposes.
  - d. Orientation program for substitute teachers.

### Recommendations

The position of teacher consultant offers a unique vantage point for involvement in and evaluation of the total school program. It is obvious that the consultant has a fundamental responsibility to make recommendations related to the educational program. To identify and overlook problems would be a serious neglect of the interests of the children, staff members and taxpayers of the Union No. 40 towns. After careful, studied consideration, the following recommendations are offered:

1. Addition of specialists in reading at the elementary and secondary level. Eventual addition of consultants in other major subject areas for assistance to staff members rather than for evaluation purposes.
2. Reduction of teacher-pupil ratio to 25 to 1 generally and 20 to 1 at the grade one level. (Large group instruction organization excepted). This recommendation is not simply opinion; it is based upon consideration of the Union program and research data.
3. Consideration of a Middle School Program for Area towns and an eventual Cooperative School Program from grades five through twelve.
4. Consideration of a kindergarten program throughout the Union.
5. Addition of a full time aide in Special Class. Initiation of a program for trainable children.
6. Consideration of a full time physical education instructor at the elementary level. (Obvious building facility plan adjustments necessary to implementation.)
7. Addition of the position of Assistant Superintendent for Instruction with retention of the position of Teacher Consultant. This is necessary to more effective implementation of merit pay evaluation and general supervision.

## **Concluding Remarks**

This is a lengthy report, of necessity. Re-directed emphasis and expanding requirements resulting from demands of a modern society on the educational program help to make it so. This, in my best judgement, represents a true assessment of the present situation and immediately apparent future needs. The educational program of this Union has many strengths, but much is yet to be accomplished if we are simply to sustain what is good and improve upon weaknesses. Assuming a desired quality beyond the status, quo, however, this report considers necessary steps to accomplishing minimal standards and offers programs for progress beyond that which is minimal. This office will constantly work towards quality in the interest of progress throughout Union No. 40.

**EDWARD J. LAWTON**  
Teacher Consultant

## HIGH SCHOOL PRINCIPAL'S REPORT

Mr. John Murphy  
Superintendent of Schools  
Milford, New Hampshire  
Dear Sir:

I herewith submit my eighth report as Principal of Hollis Junior-Senior High School.

### ENROLLMENT

School Enrollment: Grade 7 — 62 pupils; Grade 8 — 52 pupils; Grade 9 — 39 pupils; Grade 10 — 37 pupils; Grade 11 — 40 pupils; Grade 12 — 32 pupils.

### SCHOOL PROGRAM

The following is a list of subjects presently being taught in the High School.

Advanced Math III	Typing II
Advanced Math IV	Personal Typing
Algebra 8A	Physical Science
Art 9-12	Humanities V
Art 7-8	Geometry
Band 7-12	Glee Club 10-12
Bio Chemistry	Chorus 10-12
Biology 9	History of Civilization
Biology 10	Homemaking I
Bookkeeping II	Homemaking III
Chemistry	Homemaking 7A, 7B
Business Law	Homemaking 8A, 8B
Civics	Humanities VI
Consumer Economics	Family Living
Contemporary Problems	Latin I
Earth Science	Latin II
Algebra I	Mathematics 8B
Humanities I	Mechanical Drawing
Humanities II	Music 7-8
English 9A, 9B	Music Appreciation (9)
English 10A, 10B	Physics
English 12 A, 12 B	Science 7A, 7B
French 7A, 8A	Science 8A, 8B
French I	Shorthand I
French II	Shorthand II
French III	Physical Education 7-12
French IV	Shop I
Mathematics I	Shop II
Mathematics II	Shop 7A, 7B
Shop III	Personality Development
Shop 8A, 8B	and Health
Typing I	

## CLASS OF 1966

Twenty five seniors were graduated in June of 1966. Twenty four are continuing their formal education and one is in the service.

Adams, Victoria	Moore Hospital School of Nursing
Amsden, Thomas	N. H. Vocational School
Bell, Michael	New England College
Clough, Wendy	University of Vermont
Coleman, Robert	Equestrian School
Coniaris, Ruth	University of New Hampshire
Deighton, Elizabeth	N. H. College of Accounting
Goodwin, Charles	University of New Hampshire
Goulder, Barbara	Swarthmore College
Grady, Mary	Junior College, Hawaii
Hills, Martha Ruth	Mount Holyoke
Hills, William	Albion College
Johnson, Wayne	Hesser Business College
Kimmerlin, Candice	Chandler School
LaTulippe, Sandra	N. H. College of Accounting
Luce, David	Bethel College
Neary, Patricia	Cambridge School
Senter, Margaret	New England College
Smith, Barbara	University of New Hampshire
Spence, Jonathan	Franklin College
Stevens, Alfonzo	U. S. Army
VonIderstine, Katherine	Moore Hospital School of Nursing
Whittemore, Joan	University of New Hampshire
Worcester, Josephine	Chamberlain School
Wright, Beverly	University of New Hampshire

## AWARDS OF INTEREST

Donald Hunt won first place in Physics and Charles Goodwin won second place in Biology in the State Science Fair. William Spencer received honorable mention.

Kathleen Deighton and Ethel Hills were initiated into the National Honor Society.

Barbara Goulder and Martha Ruth Hills were chosen Valedictorian and Salutatorian respectively.

David Luce and Charles Goodwin were recipients of the Women's Club Scholarships. Charles Goodwin was awarded the Bausch and Lomb Award. Kathleen Deighton was selected D.A.R. candidate from Hollis High School.

Alex Gondola and Ethel Hills were selected to attend advanced study courses at St. Paul's School.

Dollar for Scholar Awards: William Hills, David Luce, Martha Hills and Jonathan Spence.

David Luce was awarded 1962 and 1965 class scholarship. David Luce and Elizabeth Deighton were awarded the Student Council Scholarship.

Donald Hunt received 2nd place in math at Technomara, Lowell, Massachusetts and received the IBM Award.

## ACCOMPLISHMENTS

1. A health course was introduced into the curriculum covering areas of mental health as well as physical health.

2. Plans are being solidified for Mr. Donald Murray, Professor of English to conduct another writing program with students at Hollis High School.

3. A full time Librarian has been employed and is greatly aiding the Humanities courses.

4. Humanities I and II (for seventh and eighth graders) has been introduced into the curriculum.

5. French I for those students who have not taken French as seventh or eighth graders was started in the ninth grade.

6. An additional shop course was instituted.

7. Glee Club (10-12) is now meeting twice a week instead of once a week. We also have a seventh and eighth grade Glee Club.

8. Music appreciation (a required course for ninth graders) has been divided into two sections.

9. The Art and Music teachers now meet students at Hollis High School three afternoons a week instead of two afternoons a week.

10. Humanities V (an intergration of English 11 and U. S. History) has got off to a tremendous start. This is another new course.

11. The World Literature course, an elective course for Seniors, has been changed to Humanities VI giving it a broader scope.

12. Reading programs have been incorporated into the curriculum.

13. Our schedule now permits us to accomodate some driver education students in the early afternoon instead of after school.

14. Our sports schedule in cross country and junior varsity basketball has been expanded to meet the needs of our students.

15. Team teaching has been incorporated into several areas of the curriculum.

16. Dr. Thomas Culliton, Chairman of the Reading Department at Boston University, meets regularly with staff members to discuss and work out techniques to have students improve their reading in each of the subject matter areas.

17. Mr. Tudor Richards, a well known naturalist in this area and affiliated with Beaver Brook School, has taken the biology classes on field trips to several areas of the community to inspect, discuss and identify some of the natural phenomena in this area.

### FUTURE NEEDS

1. Competitive salary schedule to attract and maintain a high level professional staff.

2. Resource learning center and teacher stations which will probably be discussed and voted on at the March meeting.

3. Para-professional help to assist teachers with their many teaching duties.

4. More and more emphasis should be placed upon the library needs. We should have at least 10,000 volumes to be a good first class school library. The present number of volumes is about 1,500-2,000.

## ELEMENTARY PRINCIPAL'S REPORT

Mr. John Murphy  
Superintendent of Schools  
Milford, New Hampshire

I hereby submit my first annual report as Principal of the Hollis Elementary School.

As we opened our doors to our 334 pupils on September 7, 1966, our fine staff awaited their students with eagerness to begin their work of reaching the goal of the full development of the intellectual, physical, social, and emotional potential of every child.

In order to develop this potential to its optimum, teachers must carry a reasonable class load. A class size of twenty-five is considered a full load. Every class, with the exception of grade three, has a class load over twenty-five with approximately half carrying thirty students.

In order to relieve this situation, your school board added to our staff a teacher aide for the ever-so-important first grade in order to cut the ratio down. Another teacher would have been our answer but since space is our continuing problem, the teacher aide was the solution to the situation at hand in the first grade level.

Our needs continue to be the same as previously reported with reference to space . . . additional classrooms are needed immediately, a library audio-visual center is a necessity as well as a cafetorium, conference rooms, a well-equipped teachers' room and an intercom system to help with the ever-increasing demands of the schools of today.

Another problem that faced us was the disposition of the special class child. We have a group of children who could profit greatly by this special education but again we lack space and personnel. The special class in Milford was a temporary answer for part of this problem. We are now sending four of our Hollis Elementary School students to the special class in Milford but we have others who could profit greatly from this special education. It seems unfair to these children to have them in a regular classroom. We do have a need for a special class of our own so that we can continue to fulfill our philosophy of education . . . the development of every child to his optimum.

Never has there been a more exciting time in which to teach. Equipment and materials available today give the teacher the flexibility they have needed. The introduction and development of a lesson is no longer bound by stereotyped methods for through the use of new media today every problem can have a new approach. We have added to our audio-visual equipment the overhead projector and the use of the overhead transparencies is increasing in all areas.

As our teachers become more familiar with the overhead's versatility, it becomes equipment that is never put away. One use has suggested another to the point where most of the teachers have recognized it as now being an integral part of their classroom equipment.

Another new addition to our audio-visual equipment is the controlled reader. Controlled readers are designed to strengthen the left-right concept, to increase speed and accuracy, to increase the span absorbed by the eye in a single impression and to develop specialized skills such as skimming.

With the new, our regular audio-visual equipment . . . tape recorder, record player, 16mm movie projector, transparency-making equipment, televisions, and filmstrip projector . . . continues to be used as our teachers continue to exercise their full classroom potential.

The following members were added to our staff this year:

Mrs. Beverly Denton	Level 1 - 4
Miss Lenora Lizotte	Levels 6 - 8
Miss Joan Krush	Levels 9 - 10 - 5 <sup>1</sup>
Mrs. Beth Compton	Levels 9 - 10
Mr. Charles Smith	Mathematics - Grades 5 & 6
Miss Martha Richards	Social Studies - Grades 5 & 6
Miss Dorothy Welch	Science - Grades 5 & 6
Mrs. Jeanette Marvell	Secretary
Mrs. Janet Revoir	Teacher Aide, Grade I

Mrs. Barbara Arnold is continuing her fine work in our art department. Mr. Harry Tong comes to our staff as a replacement for Mrs. Florence Stiff, Music Teacher for grades 1 through 6.

Our returning staff of experienced teachers continues to do an outstanding job in educating the elementary school children in Hollis.

Miss Nancy Mauri, Elementary School Guidance Counselor for Supervisor Union No. 40, is in our building one day a week helping in the guidance area. Special problems, intellectual, social and emotional, are handled through Miss Mauri and the guidance department.

Mr. William Munroe, Custodian, is doing a fine job in the maintenance of our building.

Mrs. Towne, Cafeteria Manager, assisted by three cafeteria workers and volunteer workers, manages an excellent lunch program serving lunches to approximately 67% of the student body.

Our physical education program continues under the direction of Mr. Korcoulis. This year we have added the fourth grade students in the physical education program. Prior to this only the fifth and sixth grade students took part in this program. There is a definite

need to expand this program through the first grade but again our space problem inhibits this extension.

Miss Pauline Woods, School Nurse, continues to carry out her effective health program. Her schedule this year has been 1/2 day sessions in Hollis during the first four days of the week. She is on call at any other time during the week.

### ACTIVITIES

The Lorge Thorndike Tests of Intelligence were given to pupils in grades three and six during the months of January and February.

Due to the heavy schedule of our resource person, we found ourselves observing American Dental Health Week a little late but completed an excellent week of dental health education in all grades during the week of March 7 under the direction of Mrs. Sherman Davis, Jr., Dental Hygienist from the State Dental Health Department. Mrs. Davis worked closely with Miss Woods and the teachers in developing the program for all grades during that week.

Science Fairs were held in April by the students of grades three and six. Some excellent projects were developed and interesting experiments demonstrated by the students.

Our annual pre-school clinic was held in April. Physical examinations were given by Dr. David Marshall, School Doctor, assisted by Miss Woods, School Nurse.

Mrs. Towne, Cafeteria Manager, served our annual pre-school luncheon in May to the incoming first grade students and their mothers. This activity acquaints the incoming students with the cafeteria routine.

In May, a TB Clinic was held at the Hollis Elementary School where the TB Heaf tests were administered.

In June, we held our Field Day. Children from all grades participated in various field day activities. All sports activities were under the direction of Mr. Korcoulis. Teachers assisted in the events. Ribbons were awarded to winners in the different categories.

The annual Reading Readiness tests were given in August to all children entering school. These were followed by mental maturity tests given during the month of September.

On September 8, a reception for the faculty was held at the Hollis Elementary School. The reception was hosted by the Hollis School Board.

The week of October 3-7 found our sixth grade students participating in an exciting week of outdoor education filled with rich educational experiences at the Boston University Sargent Camp in Peterborough, New Hampshire. During this week the students had an opportunity to learn without the use of books, but relied upon the use of vision, smell, touch, taste and reasoning power in seeking out

scientific concepts and solving problems. Miss Dorothy Welch, Science Teacher and Mr. Charles Smith, Mathematics Teacher, accompanied the group.

Physical examinations were given to pupils of grades one and four in October by Dr. Henry Forrester, School Physician. He was assisted by our school nurse.

During the fall months, Miss Woods has continued to give vision and hearing tests to all students. We have a machine for the testing of vision but are in need of an audiometer for this important phase of our health program. The machine in use is a borrowed one. Home visits, first aids and testing continue to be completed daily.

American Education Week was observed with Open House on Monday evening. This event was well attended. Our Book Fair was held during this time. Mrs. Martha Spaulding, Chairman, and her assistant, Mrs. Madeline Denault, gave their time and effort to this worthy cause. Sales amounted to nearly \$900 and our school library realized approximately \$200 worth of books from the fair.

Our Iowa Basic Skills testing took place during the months of November and December with grades three, four, five and six taking the tests. These tests cover the areas of Reading (Vocabulary and Comprehension), Arithmetic (Concepts and Problem Solving), Work Study Skills (Map Reading, Reading Graphs and Tables, Knowledge and Use of Reference Materials), and Language Skills (Spelling, Capitalization, Punctuation and Usage).

I wish to express my sincere appreciation to the Hollis School Board, Mr. John Murphy, Superintendent of Schools, Mr. Edward Lawton, Teacher Consultant, the teaching staff and other school personnel, the study committee members, parents and other citizens who have in any way assisted us during the past school year. I would like to add a special note of thanks to Mrs. Madeline Denault, retired Hollis Elementary School Principal, for her help and guidance in preparing me to continue to develop the high goals that have always been a part of our Hollis Elementary School.

Respectfully submitted,

MARION J. JACQUES

Principal

## **REPORT OF THE SCHOOL STUDY COMMITTEE ON THE ELEMENTARY SCHOOL**

### **Population Projection Summary (Grades 1-6)**

In order to make projections for the Hollis school population an analysis was made of the school enrollment as derived from the Town Reports dating back to 1953. Extrapolation of these curves was made and compared to straight line projections. A summary of this data follows.

By 1970 a straight line projection would be low by approximately 100 pupils, therefore, the straight line projection has not been used.

Plotting of the population growth for the period of 1953-1966 reveals a geometric growth rate of approximately 50% increase every eight years. (See population curves). This implies an enrollment of 510 by 1973 as compared to 378 today.

Assuming a maximum class density of 30 pupils per room (and 15 for special students) then the recommendation for 6 total additional classrooms will carry Hollis through 1973 before the figure of 30 pupils per room is reached.

Over the period from 1968 through 1973 the average density per room will be approximately 26 students (again allowing 15 for the special students' room).

### **Recommendations**

Based on the above figures we recommend the following:

#### **1. FOUR ADDITIONAL CLASSROOMS**

We believe that elementary schools have a responsibility beyond the teaching of the "basic skills". They should maintain flexible classrooms of reasonable size (averaging 25 pupils — peak of 30) with classroom units for optimum learning opportunities. Therefore, we recommend the school board consider the use of movable partitions to gain added flexibility in the use of these classrooms. Adequate storage space should also be provided in these rooms.

One of these new rooms should be equipped for teaching science, with facilities for performing experiments and demonstrations, and provided with suitable storage and counter space.

#### **2. ART ROOM**

An art room is essential where the class may be taught, work displayed and materials stored.

Other uses of this room could be:

- (1) Remedial reading classes
- (2) Testing center for guidance counselor
- (3) Viewing films and filmstrips  
(room should be capable of being darkened)
- (4) Music room

### 3. SPECIAL CLASSROOM

This would be used for a class of no more than 15 special children. The room should be appropriately equipped so these children can be taught to become as self-sufficient as possible.

### 4. LIBRARY

We recommend that the elementary school have a well-equipped library with study space to accomodate an entire class.

### 5. CAFETORIUM

We recommend a larger cafetorium complete with a stage and with kitchen facilities to take care of the larger enrollment.

This can be used:

- (1) To make assembly programs and dramatization possible
- (2) To provide physical education indoors during inclement weather
- (3) As a place to show films to large groups
- (4) To provide an adequate waiting room during bad weather

### 6. GUIDANCE AND SPEECH ROOM; TEACHER-PARENT CONFERENCE ROOM

We recognize the need for a room that can be used for speech therapy, guidance counseling and conferences.

### 7. TEACHERS' ROOM

We realize there is a need for well-equipped teachers' room in the elementary school.

### 8. TOILETS

Additional facilities are needed to take care of increased enrollment.

### 9. STORAGE SPACE; INTERCOM; TV OUTLETS

Additional space is needed for storing textbooks, teaching supplies, physical education equipment, etc.

The installation of an "intercom" would save much time for the principal and staff.

Additional TV outlets are needed in the present building and should be provided in the new construction.

## REPORT OF THE SCHOOL STUDY COMMITTEE ON THE HIGH SCHOOL

A similar approach was made in studying the high school requirements as has been previously outlined in the report on the elementary school. The study committee considers that the space requirements for the high school is in actuality the space requirements for the upper six grades and our report is based on this premise.

The population projection curves developed by this committee clearly shows a population of 450 pupils in 1973 versus a current population figure of approximately 250 pupils. This represents a 100% growth rate over an 8 year period.

After considering the thoughts and recommendations of representatives of the State Board of Education, the consulting architect, the school administration and the school board, the study committee concurs with the school administration in its outline of space requirements based upon our population projection for 1973.

Specifically we understand these recommendations to be as follows:

1. Construct a resource center including a library and its related functions.
2. Change the present library into two classrooms.
3. Change the present math room to a science room.
4. Construct six more classrooms.
5. Renovate the present art room so that art may continue to be taught in this area.

## THE REPORT OF THE KINDERGARTEN STUDY COMMITTEE

The Kindergarten Study Committee has given careful consideration to the possibilities of having a public kindergarten in Hollis. We realize the advantages of a public kindergarten and the fact that public kindergarten will be compulsory in the not too distant future.

After completing our studies and hearing the recommendations of the Space Study Committee, we find that, even though much would be gained with a public kindergarten, **especially** in helping the child who is not ready for school and is not able to attend private kindergarten, it is not feasible financially, at this time.

However, the Committee does want to stress the importance of kindergarten in the public school system. Therefore, we recommend that the School Board restudy this area again in a year or two.

Meanwhile, the administrators of Supervisory Union No. 40 assure us they will continue to work with the present private kindergarten in order to more closely correlate the curriculum.

## SYNOPSIS OF SCHOOL MEETING

March 7, 1966

The annual meeting of the Hollis School District was called to order at 8:10 in the Lower Town Hall by Moderator Towne with about 240 voters present. Moderator Towne ruled that in all ballot votes the check list must be used.

Article 1. Warren Towne was elected Moderator.

Article 2. Kenneth Trow was elected Clerk.

Article 3. Dorothy Colson was elected a member of the School Board for the ensuing three years.

Article 4. Kenneth Trow was elected Treasurer.

Article 5. Voted to pass this by and take it up under Article 11.

Article 6. Voted to accept the reports as printed in the Town Report.

Article 7. Edna Hill and Clarence Howe elected Auditors.

Article 8. Voted to raise \$3,117.50 as a deficiency appropriation.

Article 9. Voted to expend the sum of \$900.00 in authorized State Aid for the Driver Education program.

Article 10. Voted to raise \$7,200.00 for transportation and tuition for special class pupils to the Milford Elementary and Secondary Schools.

Article 11. Voted to raise \$363,445.93 for the support of schools, for the payment of salaries for school district officials and agents, and for the payment of statutory obligations of the district.

Article 12. Voted that the district authorize the School Board to appoint a committee for the purpose of determining the need for public school kindergarten in the Hollis School District.

Article 13. It was voted that the district authorize the School Board to make application for and to accept on behalf of the district, any or all grants, or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government, or from the State of New Hampshire, or from any other source.

Article 14. It was voted to accept the provisions of Title I Public Law 89-10.

Article 15. A rising vote of thanks was given to Mrs. Denault and to Mrs. Foote who are retiring and to Mrs. Wright for her service as a member of the School Board.

The meeting was adjourned at 10:20.

Respectfully submitted,  
KENNETH G. TROW,  
Clerk
